1. Soviet troops with black service color were seen in Szolnok (Q 48/O 38) in early April 1950. A local resident said that about 1,000 Soviet troops had arrived in town in February 1950. Armored vehicles with non-traversable superstructure mounting guns with muzzle brake had been unloaded with the troops.\*
  2. At least ten Soviet T-34 tanks were seen in Jazbereny (Q 48/J 11) in early April 1950. The tanks apparently left town for a field exercise.\*\*
  3. Intensive construction work was done in all barracks of Eger (R 48/J 55) in early April 1950. The Megyeri Barracks were apparently provided with garages. A third floor was added to the Szarvar Barracks.\*\*
- \*  reported 2,000 to 3,000 Soviet troops, including troops with black service color, but no tanks, to be stationed in Szolnok in December 1949.  The identity of the troops who allegedly arrived from the Szeged area in the late Fall of 1949 could not be determined.
- \*\*  Comment. No troops were previously observed in Jazbereny. The tanks seen there probably belonged to the same unit, elements of which were located in Szolnok.
- \*\*\*  Comment. No Soviet troops were observed in Eger in December 1949. The barracks were possibly remodeled and improved for Hungarian units.
